The Best Route to Kansas. The Committee appointed some weeks since to make arrangements for forwarding emigrants to Kansas with safety, avoiding St. Louis, have issued a circular, in which they say :

issued a circular, in which they say:

The committee have made arrangements with the several railroad lines terminating at Alton, by which they are enabled to supply their Kansas-bound friends at a distance with tickets over the several roads at a reduced price, and have received assurances that parties of twenty-five or upwards coming together, and giving notice to D. D. Ryrie, at Alton, Ill., should receive a liberal discount in their Hotel bills; that the people of Alton will furnish every aid and encouragement in their power to the movement; and give such information gratuitously to parties on their way to Kansas, as they may be able to impart.

and give such information gratuitously to parties on their way to Kansas, as they may be able to impart.

The undersigned, composing the Kansas and Alton Committees, clothed with the duties before enumerated, cordially invite all persons who desire to make their way to the mouth of Kansas iver, or other points in the Territory, to stop at Alton, on the Mississippi river, and at the southern terminus of the Chicago and Alton, and western terminus of the Terre Haute and Alton railroads, and two and a half miles from the mouth of the Missouri river, and ship their goods and families direct to Kansas from this point.

All goods and baggage should be plainly marked, with the name of the owner and its destination, and directed to the care of D. D. Ryric, Alton, Ill. Geods by way of the Ohio river or New Orleans, may be directed to B. Slater, No. 8 City Buildings, Levee, St. Louis, Mo. All parties of twenty-five or mere should telegraph from Chicago, Terre Haute, or other places not too distant, to D. D. Ryric, of the number of persons in their respective parties desiring cabin fare up the Missouri, and the time they will probably reach Alton, that boats may be in readiness to receive them.

Patties and individuals should manage so as to be in Alton on Wednesday and Saturday mornings, so as to meet with other parties, and thus form acquaintances up the river, and be of mutual assistance in case of acaident, or otherwise.

The Comunities have visited the leading business houses of Alton, and have fully satisfied themselves of the ability of emigrants to procure outifits at this point as cheap as can be bought at St. Louis. Fine lumber, groceries, agricultural unplements, steam engines and machinery; in short, everything needed for the Kansas tade is kept here in abundance, and will be supplied on the most liberal terms, while hotel bills will probably not exceed one half of the St. Louis pieces.

A SANDWICH ISLAND VOLCANO.-Extract from a letter from Edward Everett, merchant at Honolulu, dated March 18th, to a lady of Cincinnati:

"There is a volcano about one hundred and seventy miles from Honolulu, which is now in a state of great activity, and has been for the last five or six months. It throws out a stream of lava from one to eight miles in width, and is now over sixty in length. It has already reached to within four miles of the town of Hilo, and if the flames do not come to a stop, it will destroy the town. On it way down from the mountain, it has made a clean sweep of everything in 4ts way, having burned through thick ferests, tilled up valleys, and dried up rivers and streams. Nothing can stay its progress until it reaches the sea. In one place it falls over a precipice two or three hundred feet in height, which might well remind one of the infernal region. We had a slight shock of an earthquake a short time since." olulu, dated March 18th, to a lady of Cincinnati:

of County Committee may27J5tw1c NEWS OF THE MORNING.

We devote considerable space to the details of the border ruffin outrages at Lawrence, Kansas-a subject which stirs the heart of every lover of Liberty in the land. It is impossible that such things will not arouse the North to a full appreciation of the character of the issue to be speedily met.

Senator Summer, it will be seen, still lies dangeronsly ill of his wounds. The brutal assault upon him divides the feeling of the country with the wrongs of Kansas, for exposing which he was stricken down. Would it not be well to call a public meeting to express the sentiments of our people in relation to these things? We see that Gan. Lane is to bo at Chicago to morrow night. Perhaps he might be induced to come here.

Brooks and the "Chivalry."

We have already chronicled the significan fact, that South Carolina, proud of the exploit of her worthy representative, BROOKS, in beating an unarmed and unresisting man over the head, till he dropped, bleeding and senseless, upon the floor of the U. S. Senate Chamber, for the offence of exercising his right of free speech South Carolinia should be thought cardisire in the and true sent to Madison. The only regret we feel is, that Mr. Brooks did not employ a horsewhip or a cow-hide upon his slan-derous back, instead of a cane. We trust the ball may be kept in motion. Seward and others should eatch it next."

This is as genuine "Border Ruffianism" as can be found in Missouri, or Kansas, and illustrates the striking manner the temper and spirit of the Pro-Slavery propaganda. Liberty of speech is to be "ernshed out" at Washington, byforce of aims, if need be, lest the "peculiar institution" of the South suffer from the diameter which the Nebruska Institution has provoked,

The Courier and Enquirer's Washington correspondent of Sunday, says: "Last evening, I am told, as Mr. Challee, of Massachusetts, a quiet, peaceful and dignified member, was expressing his opinion of the Summer affair among a group of his friends, at Willard's Hotel, Brooks broke in upon the circle with the manifest intention of attacking him. A repatition of the scene in the Senate was only presented by the interference of friends, and the retirement of Mr. Chaffee."

Washington, May 28.
Mr. Brooks, of South Carolina, having addressed a note to Gen. J. W. Webb, asking him if he wrote the article in the Courier & Enquirer of Saturday relative to the assault on Mr. Sunner, Gen. Mesers Editors :

The copies of your valuable paper have jus eached us, containing at least two very welcome Aid Society. Being myself an Emigrant from sun's rays, and noisome vapors rise in our midst Winnebago County, Wisconsin, in October last, I think it my duty to write you, as one of the Committee, what information I possess concerning the country, and to offer such advice as my own experience suggests. Timber is not scarce here, in proportion to the good farming land, as is generally supposed. It is mainly White Oak and Walnut, growing to a great size. I have seen Oak trees here six feet in diameter. The country is remarkably well adapted to a scarcity of timber; the best farming land and timber lying along the streams, which have high, steep, banks, forming an effectual fence. Lime and building stone are abundant everywhere, and Coal also. It is not aucommon to see limestone and coal, side by side in the same bank. I think this is destined to be one of the greatest stock-growing States in the Union. Cattle require but little feed through the winter, and a short time in the Spring suffices to make them good beef.

The best chances for settlement are in the South Western part of the Territory, or at least South of the Kansas River. The Neosho valley South of Kansas river, and 80 miles from the Missouri. The Sac and Fox Indian lands lie in this vicinity, and they have sent on a Delegation to Washington to arrange for the sale of all their lands. When these come into market-and it will be soon-it will open as fine a country fer settlement as can be found in Kansas. I think from 30 to 50 families would find as good chances on Elm Creek as anywhere else. There is a large unount of the choicest prairie, bordering on the Creek, and some timber adjoining. On the Sac and Fox lands there are about 1000 acres of heavy timber in a body.

If a colony wished to settle here, my plan would be to form themselves into an association, ome making such temporary improvement on the timber land as would secure them the first chance, when it was opened for settlement; others claiming the prairie (of which our squatter regulations allow them 240 acres apiece) and when he title was secured they could divide prairie and timber amongst them. I would arge upon Wisconsin emigrants, the advantage of locating n one vicinity, and not be in too much of a hury, but take time to look about. By keeping in body, they can protect each other in making and sustaining their claims. The overland route in wagons is the cheapest-freight up the Misouri being very high. Every one should have a good rife, for possible exigences, as well as to shoot game. Deer are plenty hereabouts and Buffaloes abound 100 mites west.

Emigrants should bring a small quantity spring wheat for seed, as none is to be had here, or in Western Missouri. Also, a few varieties of notatoes. Cows can be bought in Missouri for about an average of \$20 each.

No doubt, you have heard all about the late doings of Sheriff Jones at Lawrence. Were ever U. S. Troops put to so vile a use before? Mr. Wood is arrested for his connection with the rescae of Bronson, last winter, while Coleman, the murderer of Dow, runs at large. President Pizzece is evidently determined to "crush out" the Free State men, but it cannot be done. The laws of the bogus Legislature have always been disregarded; and though Pierco may send enough of his minions to arrest every Free State man in the Territory, they will still,

in the consciousness of right, set the so-called laws at defiance. Every Free State man, feels that his all is at stake in the question of its Freedom. It is the general expression that if Slavery is introduced they will not stay here; the lands will not increase in value and Kansas will be as far behind the times as Missouri. I shall be glad to aid your society and the

cause in any way in my power, and to famish information to companies or individuals wishing it. My address is Council City, Kansas Territory.

Padre Vijil walks in our thoroughfare, the livng witness of the folly and inconsistency of the present prevailing administration. But above all the excitements, towers the last act of brutality in the Senate of the United States. 'Tis the main topic of conversation just now, and whereever the winds blow and fan the brows of free men, it will be borne far and wide, and never be forgotten. Despotism, where men bow down to blocks and senseless things, will pender in wonder over the deed, and the assessing of BillPoole will acknowledge themselves out-done by this act of Southern chivalry, while the measter slavery, which seeks the blood of the country, will receive a blow, it never dreamed of, which shall shake its power to the centre.

To the Editors of the Chicago Tribune: Owen A. Bassert, formerly of Les county, Io a, has just arrived in Leavenworth. He left awrence at seven o'clock this morning. He furnishes me with the facts contained in the subjoined version of the destruction of Lawrence:

THE MARSHAL'S POSSE AND HIS ARRESTS. Before daybrenk, he was aroused by a friend, who informed him that the Marshalls posse had arrived. He saw a large party of horsemen on Mount Orient, around Gov. Topliffe enrolled himself in it, which he did to prevent the posse having the slightest pretext for destroying the town, the law and order party who accompanied the Manshal, took his watch and chain, and upwards of eight hundred dollars in money. They did not return it. The Deputy Marshal and his posse remained to dinner, which they partook of at the Free State

It was the work of the Committee, not of the People—thank Heaven for that I Nover, while the blood of the Revolutionary patriots flows in the veins of Northern endgrants—never, while the thilling words of Patrick Henry, "Give me Liberty, or give me Death," are remembered by the Americans—never, while the memory of the Punitar's is honoral factor. the memory of the Puritar's is honored, or the fourth of July is celebrated as a Jubilee of Freedom—never shall the gallant sons of the mighty North obey the Draconian engetments of the Slave Power-never, by the God of Justice never! A VALUABLE STONE QUARRY .- We paid a visit on Friday to the extensive and valuable Stone Quarry of Mr. Citaes, in the town of Wauwaters, about 4 miles from the city. As far as opened, it covers about 20 acres of ground and has been worked to the depth of 14 feet.-The stone is a very compact limestone, and lies in horizontal courses, varying from 2½ to 11 inches. It is easily worked and with but little dressing shows a very smooth surface. The prevailing color is a light gray, though there are darker shades of gray, as well us pluk and other hues. It can be got out of almost any required size and thick-ness and in unlimited quantities. The stone for founda there and rough courses is delivered in the city for \$2.00 feet per cord. The dressed stone ranges in price from 15 @44 cents per linest fout. A very targe proportion of the building stone used in our city comes from this quarry, The Proping Mills on the Water Power were built of it, say eral years ago. The foundations and piers for the New-hall flouse were got out of this quarry, as well as the stone need for Mayor Cross' Block, Inbusch Brothers, Mahler &

lying contiguous, and an abundant water power on the numance, which is along title the quarry and drains it tharoughly. The water power has a fall of 9 feet which can be increased at light expense to 15 or 14 feet; and the dam, which is of stone, is one of the most substantial structures in the state. Mr. Chasa is willing, though not nuxious, to sell all of the land (except the homestead) with the quarry and water power, and to a man of capital, energy and enterprize, the opportunity is a rare one for ma king money. We think the quarry—its extent, she and quality of atone considered, the most valuable one in the State, and capable of turning out any amount and all the remained sizes of the very best building material. Ever bow, with but a dozen men, at work getting out stone, if keeps 12 or 15 teams constantly occupied, in hauling into the city, and is neiting the proprietor thirty or forty dollars a day. The agent for the sale of this very desirable property is Mr. J. S. Fillmore, at No. 2 Juneau Block, who

POCKET BOOK LOST-A HARD CASE.-A hard working farmer, named. Wit. Rusains, from Washington. Co., brought a load of produce yesterday to the city, and sold it, intending to purchase with the proceeds the summer applier for his family. Passing down East Water street, between Branley & Metcall's and No. 78, he lost his allet containing all the money he had in the world, some \$40. He has a wife and 5 children at home, all young and dependent upon him. The finder will confer a favor by leaving the wallet at this office immediately, that the water may get it and go home rejoicing.

Mr. Sumner is better to-day, having been kept under the influence of opiates since yesterday;— his pulse has peen reduced from 110 to 82; he is not to see friends nor to read letters. Although not entirely out of danger, the prospects are that inflammation will be checked.

I feel a newer life in every gale:
The winds that fan the thowers,
And with their welcome breathings fill the fail.
Tell of serency hours—
Of hours that gifle unfelt away,

The spirit of the gentle south-wind calls,
From his bine throne of air;
And where his whispering voce to music calls,

The bright ones of the sales break
Their sumbers and awake.

The waying verdure spreads along the plain, And the wide forest waves, To we'come back its playful mates arain, Its campy of leaves; And from its darkening shadow floats A gash of tranbling notes.

Fairer and brighter spreads the reign,
The treases of the woods,
With the light dailying of the west-wind play,
And the full-brighting floods,
As said to their good they run,
Hall the returning sun.

A Character in Panis,—In some of the numerous houses of the Rue de la Ch. d'Antin exists the wonderful apartment of the Duke of Brunswick, where he houds his treasure of diamonds. The Duke is a character here in Pais-Busing the time of the Presidency he loaned Louis Napoleon some millions of trancs, upon condition that his title of Alterse Monseigneur le Duc Souversin de Brunswick should be formully acknowledged. Louis readily consented, us would have almost amphory distinct of raising the consented. would have almost anybody distrout of raising the wind! So the Duke goes it in greatethe at present. He is enormously tich, and I believe has fone claim to his title as a reigning prince.—
He is said to be crazy, and his monomania vectors principally to be a love of diamonds, of which he

has the most superb collection of any male or fe-male in Europe.

But, with his love of jewels, he unites a con-But, with his love of jewels, he unites a constant and Indicrous terror of fire and robbers, and, in order to quiet his apprehensions, he has caused to be constructed what is practically called a huge safe! He has his sleeping room walled and ceiled entire with thick sheet from. Apertures to serve at doors and windows are inguliously constructed, but they can all be simultaneously closed in the releast health anamor by incans of spirities, of which he alone possesses the secret. In this structure he sleeps, having insmaller into safes about the room his diamonds and jewels. The safes are so ingeniously contrived their it takes a half a day to open or shut they, and he employs many of his leisure moments in testing their security. He lives in considerable state, maintaining a large household, chamberling two or three valets, &c, and keeps two mistresses and several equipages. He has chamberian, two or three vaces, ac, and active mistresses and several equipages. He has head shared every morning, and applies for an hour daily a bladder of ice, being subject to a congestion of the brain. He is upon the whole most extraordinary personage, and no doubt finds like a comfortable and pleasant drama worth strutting through with consequentially.
